### MUSEUM INCLUSION AND CITIZEN CURATION

Supporting visitors, both in presence or at a distance, **to share their own interpretations of museum artworks** and reflect on the variety of interpretations contributed by others.

### MULTILINGUAL NATURAL LANGUAGE PROCESSING

Language barriers are a major challenge to overcome, as we have to support all languages used in case study countries, i.e. **English, Italian, Spanish, Finnish, Hebrew** and Italian Sign Language (LIS)

### EU H2020 SPICE PROJECT

Coordinator: Università di Bologna

Aim: To develop methods and technologies to support **citizen curation of museums**
